In evaluating the overall low bidder the county will consider transportation charges from the F.O.B. point (plant). Material spreader will be required by bidder and meet all ADOT standard Specifications.

The supplier shall have material available as needed by the county. Per ton bid price including all applicable taxes shall be in effect from January 1, 2017 through December 31, 2017.

Successful bidder invoices for payment, at a minimum, must include the transport vehicle tare weight, gross weight, tonnage, price per ton (bid amount) and total invoiced amount. The invoice is the successful bidder's certification that the load meets or exceeds the specifications outlined above.

All bids advertised by Graham County Government that request separate bid prices for multiple types of materials, products, or services will be awarded to the bidder with the lowest accumulative bid, including tax, freight, and hourly spreader rate. Multiple bid prices will be averaged together to obtain the accumulative total. Other factors will also be considered when averaging bid prices, such as quantity and/or frequency of products, services, or materials that will be needed. Proprietary products may be awarded separately.

Graham County will use price adjustment for Bituminous Index, issued by contract and specifications of the Arizona Department of Transportation. Bid price will be max paid by Graham County. Graham County reserves the right to use the Bituminous Index for lowest pricing.

Non-Compliance will result in breach of contract and Graham County will move to the next bidder after five (5) business days. Breach bidder will be responsible for price difference.

All bids must be clearly marked **EMULSIFIED ASPHALT BID #A-2017-09** on the outside of the envelope and returned to the above address. If you have any questions contact Steve Puzas at 928-428-3652.
